Appendix A – Quality Requirements for Purchase Order

PURCHASE ORDER APPENDIX

The contents of this document, is a part of the Purchase Order (P.O) terms and conditions, to which the seller is committed in regard of supplying the purchased goods.

General quality requirements –

- The purchased goods must comply with all the requirements detailed in the P.O.
- Subcontractors that manufacture items or provide technical services should not change their processes without written permission from Qualion.
- Packaging - Every product or item has to be packed so that its cleanliness, completeness, correct operation and mechanical protection are assured.
- Accompanying Documents to each shipment - Where requested, the supplier must supply documents with each shipment, i.e. – Certificate of Conformance (COC), Certificate of Testing (COT), Material Safety Data Sheet (MSDS), that are related to the specific product shipped. These documents should be explicitly related to the serial number of the items where applicable.

Specific quality Requirements

1. Adhesives Sealants, Paints should carry a clear marking of the manufacturing date and the expiration date. These materials should be supplied with at least 75% of their usable shelf lifetime.
2. Electronic boards and components, must be packed so that the E.S.D protection is assured.
3. Corrosion sensitive products must be supplied while being corrosion protected and inhibited.
4. Raw materials records – The supplier must take provisions to record the raw material source and conditions, and to present them to Qualion upon request.
